Items 1 - 5 of 5

One page.

- ☐ 1: [Kinase-dead knock-in mouse reveals an essential role of kinase activity of Ca<sup>2+</sup>/calmodulin-dependent protein kinase II \$\alpha\$  in dendritic spine enlargement, long-term potentiation, and learning.](#)

Yamagata Y, Kobayashi S, Umeda T, Inoue A, Sakagami H, Fukaya M, Watanabe M, Hatanaka N, Totsuka M, Yagi T, Obata K, Imoto K, Yanagawa Y, Manabe T, Okabe S.  
J Neurosci. 2009 Jun 10;29(23):7607-18.

PMID: 19515929 [PubMed - indexed for MEDLINE]

[Related Articles](#)

- ☐ 2: [A calmodulin-binding mitogen-activated protein kinase phosphatase is induced by wounding and regulates the activities of stress-related mitogen-activated protein kinases in rice.](#)

Katou S, Kuroda K, Seo S, Yanagawa Y, Tsuge T, Yamazaki M, Miyao A, Hirochika H, Ohashi Y.

Plant Cell Physiol. 2007 Feb;48(2):332-44. Epub 2007 Jan 11.

PMID: 17218330 [PubMed - indexed for MEDLINE]

[Related Articles](#)

- ☐ 3: [Dendritic morphogenesis of cerebellar Purkinje cells through extension and retraction revealed by long-term tracking of living cells in vitro.](#)

Tanaka M, Yanagawa Y, Obata K, Marunouchi T.

Neuroscience. 2006 Aug 25;141(2):663-74. Epub 2006 May 30.

PMID: 16730917 [PubMed - indexed for MEDLINE]

[Related Articles](#)

- ☐ 4: [Modulation of interleukin-6 by beta2-](#)

### Recent Activity

[Turn Off](#) [Clear](#)

[yanagawa y and calmodulin](#) (5)

A mechanism for the inactivation of Ca<sup>2+</sup>/calmodulin-dependent protein kinase II during pro...

Ca<sup>2+</sup>/calmodulin-dependent protein kinase II is reversibly autophosphorylated, inactivated ...

[yamagata y and calmodulin](#) (8)

Kinase-dead knock-in mouse reveals an essential role of kinase activity of Ca<sup>2+</sup>/calmodulin...
